

January 2005

Dear Colleague,

**CORH Consultation Document**

I have pleasure in enclosing an important consultation document on the future regulation of the homeopathy profession. As you may well know, the Council of Organisations Registering Homeopaths (CORH) is tasked with preparing a robust system of voluntary self-regulation for all those who wish to be registered as homeopaths and who practise homeopathy as their primary therapeutic discipline.

It is my privilege to be the independent Chair of CORH and I commend this document to you. We hope that you will find it an interesting and informative 'read'. More importantly, we hope you will take the time to respond and let us have your views. We have endeavoured to be as consultative as possible during the work of CORH so far – and our proposed policies have been significantly shaped by the views of the homeopathy profession and other interested parties.

Whether you are a homeopath, a user of homeopathy, a colleague healthcare professional or someone with an interest in healthcare – we hope you will respond.

In addition to the enclosed paper version of the Consultation Document and associated questionnaire, both documents are available on our website, [www.corh.org.uk](http://www.corh.org.uk), with the option to complete the questionnaire on line.

We look forward to hearing from you by our deadline, 11<sup>th</sup> March 2005.

Yours sincerely,

Maggy Wallace, *Chair CORH*
